

TEAM LEADER AGREEMENT

Homix Living Inc. | Version 1.0 | New York

This Team Leader Agreement ("Agreement") is entered into by the licensed real estate brokerage identified below ("Company") and the licensed agent identified below ("Team Leader"). It supplements, and does not replace, the Team Leader's Independent Contractor Agreement and Solo Pro compensation election. If terms conflict, applicable law and the Independent Contractor Agreement control unless this Agreement expressly states otherwise.

Team Leader	[agent_name]	Portal agent ID	[agent_id]
Email	[agent_email]	Phone	[agent_phone]
License number	[license_number]	Licensed company	[licensed_company]
Compensation plan	[compensation_plan]	Team name	[team_name]
Expected members	[expected_member_count]	Team positioning	[team_positioning]

1. APPOINTMENT AND ACTIVATION

The Company approves formation of the named Team subject to this Agreement, Company countersignature, applicable licensing and compliance review, and completion of the Portal onboarding lifecycle. The Team initially remains in forming status. The Team Leader may create team recruiting invitations only after Portal verifies completion of this Agreement. The Team becomes active after the first approved Team Member completes the required Team Member agreement and all Company activation conditions are satisfied.

The Team is an internal business organization of the Company, not a separate brokerage, employer, partnership, franchise, or legal entity. The Team Leader has no authority to bind the Company, alter brokerage agreements, receive client funds personally, sponsor a license independently, or make guarantees on behalf of the Company.

2. TEAM COMPENSATION CONFIGURATION

Standard Team Split	[team_split_pct]% of Agent Side	Team-sourced Split	[team_sourced_split_pct]% of Agent Side
Annual Team Cap	[team_cap_usd]	Effective from	[team_terms_effective_from]

For Team Members, applicable source economics are calculated first, followed by Homix Company Dollar under the Team Member plan. The Team Split is then calculated from the Agent Side. Homix Company Cap and Team Cap are separate ledgers. The Team Leader's personal-production plan is Solo Pro unless the Company approves and documents another plan. Team Split allocations and qualified Sponsor rewards are separate financial obligations and remain separately identified even when the Team Leader is also the Sponsor.

The configuration above is versioned and applies prospectively from its effective date. It may not be changed retroactively or overridden for a single transaction by email, message, spreadsheet, or oral instruction. Any future change requires a new approved configuration version, an effective date, Portal audit history, and any required Team Member acceptance or addendum.

3. TEAM LEADER RESPONSIBILITIES

The Team Leader will provide commercially reasonable recruiting support, onboarding guidance, training, supervision of team workflow, transaction escalation, and performance coaching consistent with Company policy. The Team Leader will promote accurate records, timely submission of transaction documents, fair housing compliance, advertising compliance, confidentiality, cybersecurity, and use of Company-approved forms and systems.

The Team Leader will promptly escalate to the Broker or designated administrator any licensing issue, complaint, demand, threatened claim, fair housing concern, escrow or funds issue, advertising violation, missing or defective transaction document, conflict of interest, suspected fraud, privacy incident, or other matter requiring brokerage oversight. The Team Leader will not provide legal or tax advice unless separately licensed to do so.

4. RECRUITING, SPONSOR, AND TEAM MEMBERSHIP

A team recruiting invitation fixes the target Team and applicable configuration version. The Sponsor defaults to the Team Leader but may be another Active Agent on the same Team when that person actually completed the recruiting work. A personal referral may retain a Sponsor who is not the Team Leader. Sponsor attribution must not be changed silently and is subject to Portal audit, Company correction rules, and the signed Sponsor program.

The Team Leader may review and accept a candidate's request to join the Team, but only the Company may approve affiliation, licensing sponsorship, compliance status, and final account activation. The Team Leader may not promise approval, guaranteed leads, guaranteed income, a commission arrangement different from the locked Portal terms, or a Sponsor reward outside the Company program.

5. RECORDS, CONFIDENTIALITY, AND DATA ACCESS

The Team Leader will use Company systems for invitations, Team terms, onboarding status, transaction records, and compensation records. Access is limited to information reasonably needed to manage the Team. The Team Leader may not access or request Team Member W-9 forms, ACH details, payment-card data, Company internal notes, legal evidence packages, or other restricted data except when expressly authorized for a documented business purpose.

All Company and Team confidential information remains subject to the Team Leader's Independent Contractor Agreement, non-disclosure obligations, privacy policy, security requirements, and applicable law. Upon request or termination, the Team Leader will return or delete Company records and relinquish Company-system access as directed.

6. COMPANY OVERSIGHT

The Broker retains final authority over brokerage operations, licensing sponsorship, legal compliance, advertising, transaction supervision, Company compensation policy, permitted Team configuration ranges, Team status, and access to Company systems. The Company may pause recruiting, suspend Team privileges, require corrective action, or deactivate the Team when reasonably necessary for compliance, risk management, nonpayment, inactivity, material policy breach, or protection of clients and the Company.

7. TEAM CHANGES, TRANSFERS, AND TERMINATION

Team membership changes are prospective and require accurate Portal records. A Team Member transfer, Team Leader replacement, Team merger, Team closure, or material compensation change may require Company approval and a new agreement or addendum. Historical transactions and completed compensation snapshots remain governed by the terms frozen for those transactions.

Either party may end the Team Leader role subject to the Independent Contractor Agreement and Company policy. Ending the Team Leader role does not by itself terminate the Team Leader's affiliation as an independent contractor. The Company determines the orderly disposition of open invitations, pending candidates, active Team Members, Team records, Company-controlled leads, and unfinished transactions. Accrued compensation remains subject to the applicable signed agreements, transaction facts, offsets, and law.

8. INDEPENDENT CONTRACTOR STATUS

The Team Leader remains an independent contractor and is responsible for taxes, licensing expenses, insurance, business expenses, and conduct as provided in the Independent Contractor Agreement. Nothing in this Agreement creates employment, a partnership, a joint venture, a franchise, or authority to act as a broker independent of the Company.

9. ENTIRE TEAM LEADER AGREEMENT; GOVERNING LAW

This Agreement, the Independent Contractor Agreement, the locked Team Compensation Configuration, applicable Team Member agreements, and Company policies constitute the written terms governing the Team Leader role. No amendment or waiver is binding unless documented in writing through an authorized Company process. If a provision is unenforceable, the remaining provisions remain effective. New York law governs this Agreement.

10. ACKNOWLEDGMENT AND COUNTERSIGNATURE

The Team Leader confirms that the Team configuration, role boundaries, Sponsor rules, activation conditions, and Company oversight described above were disclosed before signing. The Company countersigns only after administrator review. The Team Leader role and recruiting privileges do not become effective until Portal verifies all required signatures and the Company approves activation.
